

**Directive 2008/57/EC and Directive (EU) 2016/797 - Parent/child structure of TSIs for NANDO notification**

Updates (latest 1st):

17.04.2026
26.09.2025
11.05.2026

**"Parent" vs "Children TSIs:** Notification should only be asked for "parent TSIs" (2nd column of the table). The NoBo notification will automatically be extended in NANDO to all related "children TSIs" (3rd column of the table, directly below the parent TSI).  
**Example:** If notification is asked for CCS Decision 2012/88/EU, it is automatically extended to CCS Decision 2012/696, CCS Decisions 2015/14 and CCS Regulation 2016/919. There is no need to request notification for the latter three.  
**Caution:** For LOC&PAS CR Dec 2011/291, LOC&PAS Reg 1302/2014 and SRT Dec 2008/163, please refer to the notes below the table.

**Attribution of "Parent"/"Child" status to a TSI:** Depends on whether the TSI introduces new topics for which new, additional NoBo competences are required.  
 1) New competences required --> "Parent" TSI, new accreditation/recognition and notification processes required for the NoBo;  
 2) New competences **NOT** required --> "Child" TSI, automatic notification in NANDO, no new accreditation/recognition required.  
**Example:** If a new TSI repeals a previous one but does not introduce new competences for the NoBo, it is attributed "Child" status, no new accreditation/recognition and notification required.

\*: Article 5 of CCS Dec 2012/88 amends LOC&PAS CR Dec 2011/291. This means that NoBos notified for LOC&PAS CR Dec 2011/291 need to take account of this amendment. However, notification according to LOC&PAS CR Dec 2011/291 will **NOT** trigger an extension to Dec 2012/88.

\*\* : Article 11 of CCS Reg 2016/919 amends LOC&PAS Reg 1302/2014. This means that NoBos notified for LOC&PAS Reg 1302/2014 need to take account of this amendment. However, notification according to LOC&Pas Reg 1302/2014 will **NOT** trigger an extension to CCS Reg 2016/919 (but notification according to CCS Dec 2012/88 will, as the full CCS Reg 2016/919 is a child to CCS Dec 2012/88).

\*\*\*: Article 8 of LOC&PAS CR Dec 2011/291 amends SRT Dec 2008/163. This means that NoBos notified for SRT Dec 2008/163 need to take account of this amendment. However, notification according to SRT Dec 2008/163 will **NOT** trigger an extension to LOC&PAS CR Dec 2011/291.
