

## Frequently Asked Questions

9. When MODULES SB AND SF are applied on an assessment of a series of vehicles, the Notified Body will have to issue a EC Certificate of Verification for each individual vehicle, and the contracting entity will have to issue an EC declaration of verification for each vehicle. When MODULES SB AND SD are applied, is then one EC Certificate of Verification issued, and one EC declaration of verification?

A single certificate is issued for a fleet of vehicles assessed using the SD MODULE whereas a certificate must be issued for each vehicle assessed using MODULE SF.
